WEALTH OF MACON COUNTY.

The time has never been known, ei-

claim of hard times was not heard from

all classes in community. The present

is no exception in this regard, and from

all occupations and business comes the

word that "money is close." Now as an

effect to this general cry of "hard

times" we wish to say that as a matter

of fact the people of Macon county never

stood as well financially as they do to-

day. During the past two years a steady

advance has been made in paying off old

debts on the part of those whose farms

were encumbered. There is yet a good

deal of old corn in the county to be

shipped, and a stand in the fields which

promises a harvest such as Macon county

has never seen. Besides the products of

the soil already secured and in prospect,

our farmers are rich in cattle, horses,

and hogs, any and all of which com-

mand to-day highly remunerative prices.

Under these circumstances, and with

such prospects, all enterprises about "hard

times" are out of place and ill-timed.

The favorable and comparatively inde-

pendent condition of our farming popu-

lation, will of course tend to the revival

and quickening of mercantile business,

and the increase of mechanical labor.

Indeed, all branches of business must

feel the effect of the improved, and con-

stantly improving condition of the

finances of our people. Instead, there-

fore, of any feeling of despondency, ev-

erybody should feel greatly encouraged,

and entertain the most hopeful con-

tinuance to the business outlook of the

coming autumn.

PERSONAL MENTION.

Rev. Dr. Stevenson went to Turro

Hanta last night to visit his brother,

who is seriously ill.

Mr. S. Auerbach, business manager of

the Royal Prussian Band, is in the city

making arrangements for this band,

which is to give a grand concert at the

opera house next Tuesday.

Mr. and Mrs. E. R. Eldridge returned

yesterday afternoon from Turrytown,

N. Y., where Mrs. R. has been visiting

her relatives for several weeks. She re-

turns looking much improved in health.

Miss Ella Mansfield, daughter of Mr.

J. B. Mansfield, of Franklin, Ill., is vi-

siting her relatives and friends in this

city. She is stopping with her sister,

Mrs. James W. Ham, on West Eldorado

street.

Mr. B. B. Hosteller, of this city, yester-

day received an appointment on the

United States coast survey on Lake

Ontario. He leaves on Monday for Port

Colborne, Canada, where he will at once

enter upon the discharge of the duties of

DECATUR SKILL.

W. F. Bushner's New Phaeton.

It always gives us pleasure to herald

the achievements of our mechanics and

manufacturers, and we have taken fre-

quent occasion to compliment the evi-

dences of their skill. Among those of

our manufacturers who are deserving of

more than a passing notice are the

Wayne Brothers, carriage builders. The

fact that Decatur has more handsome

carriages and buggies than any of our

neighboring cities, is largely owing to

the taste displayed by this firm. One of

the latest of their triumphs is a pony

phaeton built for Mr. W. F. Bushner,

which made its appearance on the streets

for the first time last evening. This

beautiful piece of workmanship, while

it somewhat resembles other phaetons

built by the Wayne Brothers, possesses

some features peculiar to itself. Among

them is the platform front, constructed

entirely of iron, upon a plan alto-

gether new. This, with the arrange-

ment of the springs, makes it one of the

most comfortable vehicles to ride in we

have ever seen. We are not well enough

posted in the technical phrases used by

carriage-makers to describe this splendid

piece of mechanism properly, but the

most casual observer cannot fail to no-

tice that all the work upon it is of the

very best—the woodwork, the trimming,

the painting, the iron work, all give evi-

dence of the fact that the men who build

it are thorough masters of their trade,

while the design itself shows the inspira-

tion of the true artist. We speak ad-

visedly when we say that, for no man

who has not a remarkably fine eye for

the beautiful could originate the design

for such a handsome vehicle.

Prof. Weissenbach, with the Royal

Prussian band, will perform on sixteen

drums at once, at the opera house on

Tuesday evening next.

Stable Burned.—About half past eleven

o'clock this forenoon an alarm of fire

was sounded, occasioned by the burning

of an old stable in the rear of the Revora

House block which is rented by Stoy &

Bishop, and by them sub-rented to Mr.

C. Crocker, the groceryman. The fire

was discovered by Mr. Bishop in its

incipient stages, and the alarm was given

at once, but so combustible was the ma-

terial which fed the flames that before

the loss company could reach the place

the old stable was past saving. It is

supposed that some boys who were at

play about the building set it, either by

accident or with design.

The building was the property of Mrs.

Clark, of Springfield, and was occupied

by Mr. Crocker as a
